

## Home Screen

## When Click "Heat Map"

<p>When the User searches by state AND/OR longitude and Latitude</p>	<div data-bbox="370 220 974 682"><p>Button takes user back to home screen</p><p>Screen When the user searches by State/City or Longitude and Latitude:</p><div data-bbox="472 306 799 682"><div data-bbox="472 306 519 338">Home</div><div data-bbox="602 306 662 338">Breathe-Ez</div><div data-bbox="602 321 974 338">Charlotte, NC</div><div data-bbox="597 359 651 373">Line Graph</div><div data-bbox="500 422 548 436">Average AQI</div><div data-bbox="548 369 714 499"></div><div data-bbox="602 499 634 514">Year</div><div data-bbox="597 520 651 535">Bar Graph</div><div data-bbox="500 577 548 592">Average AQI</div><div data-bbox="560 541 725 661"></div><div data-bbox="602 661 634 676">Year</div></div><p>Location is whatever the user is searching</p></div>
<p>When the User searches by AQI</p>	<div data-bbox="435 777 1133 1222"><p>Button takes user back to home screen</p><p>Screen When the user searches by AQI</p><div data-bbox="581 877 881 1222"><div data-bbox="581 877 628 909">Home</div><div data-bbox="695 877 755 909">Breathe-Ez</div><div data-bbox="634 957 711 972">AQI Searched: 51</div><div data-bbox="634 982 776 997">This is a "moderate" AQI Value.</div><div data-bbox="634 1039 784 1054">Areas with moderate AQI values:</div><div data-bbox="634 1060 711 1117">North Carolina South Carolina Texas Utah</div></div><p>The value the user searched</p><p>A short description of what that AQI value means</p><p>The user can click on the location and will be brought to the "Screen When user searches by City/State" page</p></div>
At the moment, this is all we have for the storyboard
